

I am Keira Fernandes and I am representing the Conservative party, who believe in honouring the people's vote by delivering Brexit and keeping a strong economy. Leaving the European Union will result in an extra £11 billion a year, which we will invest into our NHS, schools and infrastructure. We know that it is necessary to take back control of our borders and courts; our deal with the EU allows us to implement fair immigration schemes. Our government will maintain a strong economy by keeping taxes low. Additionally, we realize that our young people are suffering and we will help them by investing £2.3 billion into mental health services.
