

Head of Culture and Diversity - Gabriella

Hello, my name is Gabriella and this year I have the privilege of being Head of Culture and Diversity. Through this role I will celebrate the different cultures in our College and embrace the diversity of our students and teachers.

This year I aim to help students feel like they are a part of our College community whilst being able to share their differences too. I hope to encourage others to express their different backgrounds, beliefs and values through fun events that will happen over the year, for example Culture Day, European Day and Black History Month. I look forward to helping and supporting you in the upcoming academic year and hope that by the end of it, I would have positively impacted inclusivity of our College and helped students to feel confident about themselves and their identities.
